

Delmarva Group is a proud supporter of NMBio and its members

NMBIO

DMVG Advantage

At DMVG Technology we take the time to understand your company's goals and how technology can help you achieve them.

Website Development

We create functional responsive websites with the goal of conveying your message to your audience. Our support options keep it secure and up-to-date.

Email Marketing

Our proprietary email solution is designed to generate custom tailored newsletters to promote your information and brand into the all important email box. Our service allows you to create and send your newsletter out in minutes rather than hours.

Search Engine Optimization

Our SEO and Content Marketing solutions get you noticed by your target market and drive users to your website to learn more about your organization.

IT Support and Staffing

We can support your IT infrastructure and our staffing services can provide temporary, permanent, and out-sourced staffing. Our **On-Call CIO** service provides the IT leadership to deliver results along side your existing team.

About Us

Delmarva Group, LLC is a group of technology and staffing experts with a passion for providing high quality services to the business community. We work with our clients to provide solutions that fit within and add value to existing budgeting models.
